Connect Race

“Small but impressive” is how best to describe the SWING range of harnesses. This is the very reason why SWING-harnesses are now some of the world’s best-selling harnesses.

There was just one harness needed to round out the range: a true-blue XC and competition harness. The Connect Race will now fill this gap. Developed in collaboration with one of the world’s top cross-country pilots, it offers everything a competition pilot could ask for, making the Connect Race a further innovative step forward from SWING.
