New Comp Wing: Core 3

Swing starts into 2013 with the brand new EN-D Competition Glider Core 3.

The wing being a further development of the preceding year's model Core 2 shows significant improvements. Amongst others it's canopy has higher stability and the glide performance on full acceleration is even better now. All three sizes have already been [certified](#).

The first big appearance of the Core 3 ist the Worldcup Superfinal, taking place in Colombia in the two coming weeks. Already in the currently taking place "[Open Roldanillo](#)" Luciano Pagnoni gives a sneak preview of what the Core 3 is able to achieve.
