## New German Record

**June 13th 2013. SWING Team Pilot Ferdinand Vogel flies a RECORD Triangle on his CORE 3.24.**

Ferdinand launched in Germany/Garmisch-Partenkirchen and flew a 274km Record FAI triangle. Flight time almost 11h and he even managed to close the triangle. This flight is the biggest ever FAI launched in Germany with a Paraglider and new german record. Missing the new Worldrecord by only 4km.

Swing congratulates Ferdinand to this awesome performance! Keep it up!

Details of the flight:
