## New – Swing's winter and summer flying suits

With the Swing flying suit, we give pilots the choice of two flying suits which have been well-thought through right down to the last detail. Our purpose in design was to create a very functional garment with an elegant design - and that's exactly what we have done. The flying suit is available in a summer version or a winter version (lined). In addition to the design elements which are essential for a flying suit, it offers many additional practical features. It goes without saying of course that it looks good as well. There is more information at the link below. It is available from our [onlineshop](#) or [Swing dealers](#).
