Safety message from Woody Valley

SWING would like to refer to a current safety message from Woody Valley:

[Download \(pdf Document attached\)](#)

Only the SWING harness models Connect RACE and Connect REVERSE EVO may be affected. Only on those harnesses the affected buckles (slim, red with WV engraving) are used for the chest / legstrap. We ask all owners of the above harnesses to perform the closing test as described and if found faulty to contact Woody Valley directly for a repair.

WOODY VALLEY s.r.l.
