Three German Champions 2014 fly Mistral 7

The German DHV XCcountry season of 2014 officially ended on the 15th of September. Three pilots, flying our performance intermediate Mistral 7, secured four first place finishes.

After a grace period of 14 days from the 15th of September, final Submission deadlines are over, and what was already apparent during the season, is now certain: The [Mistral 7](#) is one of the best performing wings of its class!

Didi Siglbauer succeeded in causing a small sensation by using an EN-B wing to win in the [performance class](#) becoming German Champion 2014. With this success he upset several pilots flying comp wings, amongst them Daniel Tyrkas, who came second with just 0.89 points less on his [Core 3](#).

Another ranking was dominated by Mistral 7 pilots. In the [club ranking](#), Hochfelln-Flieger were able to secure the popular title. The three best pilots of the club - Didi Siglbauer, Thorsten Hahne and Roland Eckstein – relied on the [Mistral 7](#) for all their flights.

SWING congratulates all pilots for their successes. We share your joy!
